

Pi Phi Re-Chartering

April 16th 2011 was an historic day for the Chapter of Pi Phi at Robert Morris University as 28 men were initiated into the Brotherhood along with re-chartering the Chapter. Thanks to the dedication of Graduate Chapter, and determination of the undergraduates, the process of going from Colony to Chapter was amazingly completed four days shy of a year. In the course the past year, the men have built quiet a resume by becoming the largest fraternity on campus; bringing back the Crowball basketball tournament; achieving the highest grades of all male fraternities and beating the all men's GPA for the school, booking hundreds of community service hours and support several charities. Be sure to read the full article of the Pi Phi re-chartering in the July issue of the G&W!
