

## **An Update from Beta Phi at Rutgers University**

Greetings from New Brunswick, NJ! The Beta Phi chapter has been very active this fall and is quickly becoming a major force on the Rutgers campus. They have actively been changing the whole mind set of the Fraternity and making great strides toward becoming a better Chapter. They have been actively involved in building better relations with the Greek community by participating in their events including the Delta Gamma Anchor Splash and the Theta Chi/Sigma Chi Basketball tournament. They have been actively fundraising by working at the new MetLife stadium in northern New Jersey.

They were able to take a class of 14 postulants this fall and have a great start for the spring as far as rush goes. They have been actively doing community service including participating in a campus clean up and Elijah's promise which is a soup kitchen in New Brunswick, NJ. They are planning an IFC retreat to go over finances and recruitment methods and have been meeting regularly with campus officials to help mend their relationship.

They are planning an Alumni event for all alumni of the Chapter in New Brunswick in the spring. For more information on this event please contact Christian Pecoraro (201-694-7038, [chris.pecoraro@yahoo.com](mailto:chris.pecoraro@yahoo.com)) In the fall they have also been actively seeking their first Keller Cup for excellence in athletics. They have been heavily involved and have made great strides including a first place victory and back-to-back championships in Flag Football. I hope to continue to see great progress from this Chapter and for them to continue to grow as a group.
