

Eta Chi Phi Chapter Report

The fall 2011 semester has been looking very bright thus far. At the semester's Welcome Week Club Fair, our table attracted a considerable amount of people, perhaps the largest crowd in quite some time. During this semester, we have many events planned. These events include, but are not limited to, a Buffalo wing sale, an educational event on applying for Graduate School, and our annual football game with another fraternity on campus. We are truly looking forward to these events, and we will do everything we can to ensure that they are successful as well.

In addition to the large turnout at the club fair, our first interest meeting was very successful. Upon entering the meeting, several of the attendees did not know any concrete information about Greek life at all. By the end of the meeting, the overall feeling in the room spelled out to great potential. Not all of the interests were able to commit to an educational process this semester, but we will stay in touch with them so that perhaps they will participate in the near future. For this fall class, we are looking at roughly 5 Postulants.

In conclusion, the Eta Chi Phi Chapter is doing quite well. Despite busy schedules from brother to brother, we are still committed to making this semester one of the best ever. We are hoping to start the educational process very soon, and the new people are very enthusiastic about it. Every day, with the landmarks and all other principles close to heart, we work to better ourselves, help other people, and do everything in our power to reflect the image of what it means to be a Brother of Alpha Chi Rho.

Michael Risi, Eta Chi Phi Chapter President
