

## Phi Lambda Car Smash

On November 11<sup>th</sup>, the Brothers of the Phi Lambda Chapter hosted our first philanthropy car smash. The car smash was held to benefit the Center County Habitat for Humanity. The car was outfitted with Nebraska University logos, as our University had a football game with them the next day. The event was a huge success for our first time organizing it, with over \$400 being raised for Habitat for Humanity. We plan to continue holding this event the Friday before the last home football game of every Fall Semester and only expect it to continue growing as its name recognition grows.
