ALPHA CHI RHO Fraternity

Summer New Letter, June 2012

MEET THE
NEW CHAPTER
CONSULTANTS

Ryan Thomas is a recent graduate of Rutgers University in New Brunswick, New Jersey. Ryan is a Brother of the Beta Phi Chapter of Alpha Chi Rho and was initiated in the Spring of 2009. Throughout his time at Rutgers, Ryan served his Chapter as the Community Service Chair, Philanthropy Chair, Rush Chair, and Executive Board. He majored in History, with a minor in Education as a Social Science. Ryan received a Bachelor's degree this past May and is a proud member of the Class of 2012. His academic career started as a Biology major; but he fell a little behind and decided to change his major so that he would be able to graduate within four years. Ryan decided on History and Education because they had always been subjects that both came easy to him and he has always been passionate about. He feels that the education classes that he took have really put him in a position to succeed in his new position with Alpha Chi Rho. The curriculum focused on educating adults and stressed the skills of communication and organization. Ryan feels that these skills that he has acquired will allow him to be very efficient and productive in his new role with the Fraternity. Although Ryan focused on history and education while in school, he is not sure if he wants to teach yet. He is using this opportunity to explore his options and get a better idea for what he wishes to pursue as a career. Aside from Ryan's school work, he also participated in numerous activities on the Rutgers campus. He participated in the intramural sports between the fraternities on campus and helped to capture three consecutive flag football championships. Ryan also participated in many philanthropic and community service events during his time at Rutgers. In the fall of 2010, Ryan completed the Tough Mudder, which is a 12 mile obstacle course that sends the proceeds of the event to the Wounded Warrior Project. Ryan also oversaw the community service of his Chapter and volunteered at numerous functions. These included serving the local soup kitchen, New Brunswick cleanup days, and a wide array of other functions. Aside from his school obligations, Ryan worked throughout college at a number of different jobs. These jobs included an internship at Phh Mortgage, Patient Escort at Virtua Hospital, intern for the non-profit Hyacinth Foundation, and bouncer at Scarlet Pub. Ryan is from Somerdale, New Jersey, which is right outside of Philadelphia. He loves the beach in the summertime and also the big cities. Ryan is also a die-hard Philadelphia sports fan and enjoys watching his teams regardless of the outcome, but obviously likes winning the most. He looks forward to taking on his new responsibilities and is excited about the new challenges that await.

Meet Larry Sarver from Michigan a new Chapter Consultant lsarver@alphachirho.org

Commonly known as Larry, Laurent Sarver was born in Detroit, Michigan on March 9th, 1990 and grew up most of his life in Chesterfield, Michigan. After attending high school at L'Anse Creuse - North where he was involved in soccer, tennis, Student Council, and was voted Homecoming King, Larry was accepted to Northwood University to attend college.

While attending Northwood University, Larry majored in Advertising/Marketing and Management which is considered a dual-major. He also took part in the club soccer team and was a member of the American Advertising Federation (A.A.F.) Club. During these times Larry and his friends spent a lot of time playing the Nintendo 64, Monopoly, and other games. So much time, that it is almost embarrassing to think about.

In the winter of 2008, Larry decided to rush the Phi Kappa Lambda Chapter of Alpha Chi Rho and was initiated as a Brother in March 2009. Upon joining AXP and after the completion of his freshman year, Larry was elected as the recruitment chair for his sophomore year and played a significant role in recruiting a 14-person pledge class. Larry was also a delegate for the IFC this year and was voted as Co-Greek Week Chair.

The beginning of 2010 wasn't so great however. The men of the Phi Kappa Lambda Chapter fell into some trouble, which resulted in their temporary suspension from campus. Newly elected as President, Larry vowed that he would not only work to take his Chapter out of suspension and back into the good graces of the school, but also when it was time to give up office as President, his Chapter would be more successful than when he began. When June came around, this goal was achieved and the Chapter had come together better than ever. After a second term as President, Larry was confident that the Chapter would be led in a successful direction for the future due in large part to the very capable hands of its current members.

Larry enjoys spending his spare time playing mini golf, soccer, tennis, and disc golf. He enjoys exploring new places, meeting new people and just watching T.V. or a good movie. He is also a huge fan of the University of Michigan, Michigan State, and all of the Detroit sports teams because they are the greatest. Larry hopes that the experience gained from working with the Alpha Chi Rho Headquarters will prompt him to have a very successful career in the advertising industry. Larry is very happy to be a part of the Alpha Chi Rho National Office, and is excited to see what the future has in store for him!
